

William J. Worthen, AIA, LEED® AP
Vice President

Simon & Associates, Inc. provides consulting on sustainable and healthy building practices for design firms, as well as public, private, and non-profit building owners and developers. Bill brings over twelve years of experience as a project architect and in construction administration to his work as a green building consultant. In addition to his work at Simon & Associates, Bill is the American Institute of Architect's Resource Architect for sustainability.
